

Matrix "Architect"

The highly praised „Architect“
probably also MCS's

...is probably just an MKULTRA Psyop, influencing a complete group of people with a generic upstream mind control system of CIA

The funny thing, in the end the big spk'd blob kills Neo, making all people forget about the PsyOP that was shown even as a good person. I dont believe that Sigmund Freud = PsyOP is a good person.... but this is not proven >yet<

How to intimidate complete Group

Victims

Victims that are difficult to exempt

HONEYPOT

update: some of the hostages are institutional honeypots, for example I found out about the fact that mental institutions are used by the cia (MindControl=Psychology=Psychiatry...) then we of course would try to free loerror's mother, but possibly the cia created this situation just in case that someone like me that was already in mental institutions would find out about this dirty "game".

So "possibly" there is already a big team that waits on people that try to free Jacobs mother, so best way would be to help and support that people (eg. g2/mad people) that were already in the same mental institution help them and ask them for help and information(s). It would be likely that not just in the case of loerror the mental institutions go after the whole family and also use m50 card in the family

consider cards: a14, a15, m124

DANGER: if this hypothesis is correct be aware of a16 cards

You can do easy for example create a ROT13 encryption, that of course can be broken in seconds, but to begin with crypto it's maybe a good exercise, then continue maybe with Vigenere cipher, and then p-boxes and S-boxes.

Be careful, if you begin with crypto eg your local military would like to own you and to prevent that you dont join the crypto-anarchy movement.

Work in pairs of at least 2 people, if they want to put you in mental institution to erase your brain you have better chances to prevent that.

i dont have a lot of time *INSERT: since they target me permanently* <- psychological warfare but if you have time it's quit easy to write something to encrypt and decrypt rot13, alphabet has 26 letters, so if you double-rot13 you have again the original...

<https://0x8.ch/HackersCardgame5>

So first the Agent in Matrix (Agent Smith) is somehow to young and to make the Agents feel superior such institutions have specific design, so possibly one would find out quite fast if a company is played by the NSA/CIA just by looking at the design of the building and the design of its rooms...

not yet 100% sure about that....

Possibly this unnice guy is on cocaine and thinks he installs psychological malware to the kids at that party. In fact he is just the scapegoat but does it intentionally. Remote Controlled by TI card: if you find this video you will find out what I mean, listen to what he says.

All the things i wrote to that noted here seems to be deleted: <http://marciandolt.ch/doc/mastersOfHacore.html>

important thing would be that possibly all the young people from this party was owned mit hardware-, software- and psychological backdoors.

if true we need a rescue mission.

If you are younger than 40 feel FREE TO SAY AS **MANY WRONG THINGS as you like**. It's not up to you, to teach or to fix people that are older than you how they could have done things better, but do it better yourself and give this card also to the younger generations and don't make the younger generations clean up your mess like the 1950s Generation did to us: https://de.wikipedia.org/wiki/Sonderm%C3%BClledeponie_K%C3%86lliken

Use Cases

If an older Person gives you a bad feeling, if you said something wrong, it's not worth it to invest your time into his "lessons". often the **teacher** (Sophist) opposite of a **philosopher** just compensates his own self-esteem at the expense of his students...
