

## Anti-Psychotics Part 2

## giving Multiple Reasons at the same time to poison elaborate facts

## search detection

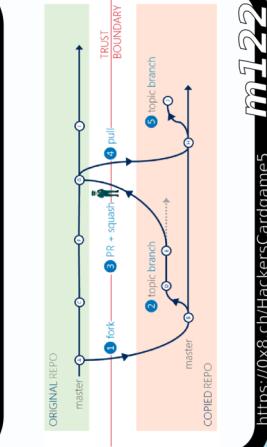

## Aversion- archetype

Some Mental Institutions give young adults or even kids drugs that make them stupid and happy. (Part 1) And with technology Cards (eg t1 or 70 years newer technology) they then (ab)use them to infiltrate dangerous systems (Part 2), for example companies that are using or selling illegal drugs. The "anti-psychotics" makes the kid stupid, lucky ignorant and would cause the kid to make fun about the people in question. So the company or chief in question would tend to hate and attack the young adult. See Human Rights, see law. **Don't do such things, the chance is quite high that if the company does illegal things would kill the young adult!!!**

If you would have some "unseen" communication channel like US4870027 or Stimociever or Neuralink and something reminds like your face suddenly gets burned (see m121 Card) then there are many reasons given why this happened or how this happened. Often only junk and spam that would lead you into the wrong direction. Take a pencil and paper and note all of them down, some of them you can eliminate because there are mistakes in that reason. Some you can not, but if you note all the claims and then it would be easy to find the pivot element (Pfister&Urs) since people tend to use often the same chess pieces and moves.

They seem to have some sort of function on Stimociever, Neuralink to detect if you try to find something. That activates an eventtrigger that then samples the person you fear most (Pfisterer) say things like:  
- Suchen bis gefunden (mil Retorical Automatism)  
- HAHA, i hold it in my hand (+video Sample)  
- What does he want, HAHAHA  
(additional b1 card is activated with the sample)  
Especially annoying when they do it if you try to find your sex toys... prerequisite maybe m98 card, often plays loop that makes you search always the same places triggers multiple times, co2>a6 In my particular case they seem to have a fetish triggers that in private life, maybe they hope, i would not leak it then... as you see, i would "not", and if you talk about that they even begin to render things on your sex toys, that suxx even more

## Proximity sensor(?) ⇒ Stimoceiver (t1) ⇒ Amygdala Implant (b1)

Groups of old pedophile looking (german: gläuschen) (women that seems to know my personal data, even if you have no electronic device on me. Maybe **RFID** in the **Creditcard** / **Surveillance Cam** of **Shopping-Mall**). They seem to enjoy to hassle you, more worse if you have epitheted your thing between the legs day before. They target your sexual integrity, because one epitheted i shaved "maybe" for an equal aged, for old **pedophile zombies**. Possibly they get **broadcast message** "freshmeat at >your positional data>" "Human"-BOIs seem to be driven by their **limic system**. The fact that they know what you did privately drives me insane. For me as a 40 year old Man its quite annoying, but imaging **how this must be for a 20 year young women**. That makes behavior paranoid and insane (~m19)? Behavioral Science & Marketing young to old / old to young (m7,m8 card). We should add **Automatic Behavior Recognition** Sociopsychology-Designpattern at least for the young girls so that they are not thrown in the group of old starting pedophiles, but in the group of equal aged.

## confessional (to confess)

<https://0x8.ch/HackersCardgame5>

Inventor: **XXXXX**

Year: ~????  
They used m121 Card as Scapegoat. One working hack to work around this principle is to confess what you have done. Me for example I drove drunken car and did other things, so i tried to turn myself in, but they said that this sins were expired. From that point in time the NSA/CIA System could blackmail me with this sins anymore, unfortunately they then began to shoot against my sexual integrity. **Consumer Note: Nun not included in all use**

## Seductive Coercion PART 2 (molest with old people)

Inventor: **XXXXX**

Year: ~????  
Even if you did not consume m133 Card, they unfortunately put old pedophile people into your bed apart from, on your body sometimes just an avatar, sometimes real connections (m98 & m99 card) to rage you, or to make you run suicide or amok, in fact the NSA/CIA wants to distract you from **SIGHT** / **COMINT** and **HUMINT** Concept Knowledge. During this scenes they activate things like b1, t1,t5 to make you even rage more. Maybe Mail Attachment. **It is abused to force witnesses or juries to do false accusations**. It is ok for me, if younger people don't help me or older people in the face of attack, but putting an innocent person like me into **jail** or **a military institution is not ok**. In this case // we can not protect you anymore because then you are already part of the problem. We we could rescue all equal aged and younger people, since we know that now. **we need a method to protect the complete social network (COMINT / SIGHT) of the whithat hacker / whistleblower and maybe hisher shrinks if they are younger: "Firewall1?"(Vorsatz), "everybody is good enough" (later m133)?**

## "Enlightenment" with Drugs

<https://0x8.ch/HackersCardgame5>

Inventor: **XXXXX**

Year: ~????  
The CIA seems to put disgusting (igitttt) Pictures on relevant informations (Cold War-era Intrusion detectors... that can detect movement up to 300 meters away are powered by tiny power cells, and have built-in antennae. Transmitters relay data from the device via coded impulses.

When i was 20 Years old 3 "friends" used peer pressure over a period of 6 months to make me consume Ecstasy in our Music Club below a (stereotypical) Gym. We also watched the movie "The Matrix". In the end they succeed. After that Scene the t1 card told me, that i now must "enlighten" also the equal aged Girl Rachel Sc. (they wanted me to fork, so i would have been guilty of ruining someone's live to and then i did not). Then the t1, t2, t6, t11. Cards also told me to put some XTC into a bottle in my parents fridge, i did almost, but i did not. I guess the suggestion they used was, that my parents have a less technical / scientific background, so i wanted to "enlighten" them as a gift. It was even the same substance already consumed so i was not thinking about that i could have poisoned them, but i possibly would. Relevant: intended / implemented to fork to other people, so switzerlands Society is under attack since before 9/11.
