To hug, to cuddle, clinical use e.g. in the case of children that have been sexually abused to recognize "object fixation on the plush / coping strategy, "clinging to the plush" when the victim is overstrained with the examination => pause!

Multifunctional: to hug, to throw at the head of other people, coping strategy of kids if parents don't care enough about the children, or as a present to show solidarity: [sk1 card Problem](#).

There are 'some' drove controlled old people (in my case i mean 1965 and older) that switch to a Mode (co1 Card) where they say to themselves "I need to help this young girl or girl". But fact they just follow their egoistic desire ([m73 & b2 Card](#)) and Peitsche zu bis die Psyche des Pferdes gebrochen ist und es gefügt ist. Es gibt viele Filmszenen (Z.B. Bones - Die Knochenjägerin) wo das Thema Menschliche-Pferde in sexueller weise thematisiert werden. ev auch Porno. Somehow they can detect when equal aged play harmonic with each other that triggers in my case normally pedophile people that destroys everything or even begin to swear or threaten us.

- unsure if jealousy
- drunken sadistic
- to make kids consume stuff they dont need
- to make slaves out of the kids with promising to put them back in their group of equal aged

they seem to do this already with small kids (sk1 card) GFY for that!

Often the those in power have some sort of spell to virtually dress their **victims** as **offenders**.

It happen very often to me, that i've been hurt or almost killed, but in the end the curf ruled against me. And there are also many female rape victims that have observed similar things.

So in our opinion swiss justice system is not just, or never was. Or at least those judges i had. Mental Institutions in switzerland are also not the best place for victims.

So if anybody has good ideas to fix this problem please add the ideas to this repo.

"Fixation" (German: Objekt Fixierung) concept make young people focus on more on things than on humans. So it becomes more easy to manipulate the young people. Additional you could even make the young kids follow a evil symbol system, Patch: Kids learn also Psychological Concepts

Touring Complete Avatars to spam Justice System

Pfisterer uses touring complete avatars from Police Officers, Judges, Victims to spam and obfuscate the investigation against him. [m42](#): The NSA/CIA "maybe" even infiltrated eg swiss police communication systems like polycom. All countries should have an eye on such important systems, since they would be main target for NSA/CIA. So definitely a SIGINT/COMINT Problem, so he tries to drive Whistleblowers / whitetail Hackers / witnesses to things like m32, m42... to distract from COMINT/SIGINT problems. Maybe even a TURBINE, TARMOIL, Quantuminserts PsyModule, Pfisterer bloats things and people up to distract from the main problem (COMINT/SIGINT) we know about thanks to Snowden [Level 2](#) of this algorithm is that those avatars are being activated only if the Whitetailower, Whitetail, Witness, says something So lets talk as a chosen plaintext attack. The speech part that initiates voices could be same neuronal network, training eg. with youtube data? <https://proxyspot/06.00927.pdf>
